Changes release 224:

Item	Change	B/I/X	Description
235-1	🤖 🖥	I	**List of Exemptions** *The ELD app and portal were modified to include a list of the most common US and Canadian HOS exemptions. These are the exemptions added:* *a) 395.1(k) - Agricultural Operations* *b) 395.1(c) - Driver-Salesperson* *c) 395.1(b)(2) - State of Emergency Conditions* *d) 221.025 (8) - Construction Equipment operating* *e) Not Commercial Motor Vehicle* *f) 395.1(e)(1) - Short-haul No Break* *g) 395.1(e)(2) - Short-haul Non CDL/Ready-Mixed Concrete* *h) 390.23 - State of Emergency* *i) 395.1(n) - Utility Service Vehicles* *j) Sec.81 (CAN) - Drivers operating within 160km of terminal* *Back-office personnel can pick an exemption directly on the portal, and the next time the driver logs into the ELD app, it will be operating under that specific exemption. Drivers can also pick one of the exemptions directly on the ELD app.* *There is a custom entry which allows back-office personnel and drivers to enter a different exemption description and the ELD will behave the same way as any other exemption where the use of the ELD is not required.*
235-2	🖥	I	**Unidentified Records listed for All Vehicles** *A new option named "All" was added to the Unidentified Records tab on the ELD portal. This option shows all unidentified records for all vehicles for a period of time.*
235-3	🖥	I	**New Limited MOA type of user** *A new type of user was created for a MOA configuration. Carriers can be assigned to this new type of user to limit access to those carriers only.*

235-4		B	**Bug reassigning driving time between co-drivers**
			An error appeared on version 232 under specific circumstances where driving time moved from the original driver to a co-driver was not disabled from the original driver.
235-5		I	**Changes in the Asset configuration**
			Trailers no longer need a VIN, and both tractors and trailers no longer need a vehicle plate.
