### **Summary of previous Release Notes (237, Jan 31st, 2023):**

- ELD Portal Help.

Changes release 236:

Item	Change	B/I/X	Description
240-1		I	<p><b>Option to mark Driving time as "System or User Error."</b></p> <p>When a driving time is mistakenly recorded, the driver can add a remark: "System or User Error" to that status to avoid that driving time being counted against the Driving windows for the day.</p> <p><b>IMPORTANT:</b> This new feature removes driving time, extends the duty status before the Driving event been marked as "user or ELD error", the daily counters are adjusted but the Driving time remains on the driver's records and is exported to inspection agencies.</p> <div style="display: flex; justify-content: space-around;"> <div data-bbox="430 688 958 1585">  </div> <div data-bbox="966 688 1502 1585">  </div> </div>
240-2	 	B	<p><b>Adding PU and YM miles to the distance traveled on the app Logbook and Print/Display option (app and portal).</b></p> <p>The distance traveled in PU, and YM is added to the daily odometer.</p>
240-3		X	<p><b>DVIR-only iOS</b></p> <p>We are releasing a standalone DVIR app on iOS for Apple users.</p>

			
240-4		X	<p><b>Add support to Canadian certifications on the Portal.</b></p> <p>We have added a new page in our portal to facilitate the current and future configuration of the reseller’s Canadian Certification using our ELD solution.</p>

			
240-5		/	<p><b>Adding Adverse Condition remark to current duty status.</b></p> <p>In order to bring more visibility to our customers, we are adding a remark when drivers select the “Adverse Condition” feature.</p>
240-6		/	<p><b>Modify User Hierarchy to allow Master Reseller to make changes on Client Limited user accounts.</b></p> <p>When this update is in place, the Master Reseller account will have access to make changes in the configuration of any Limited Client account below that Master Account.</p>
